A Year in Review

to **develop** and **create** opportunities for individuals with disabilities that will **support** and **inspire independence**.

MISSION STATEMENT

to **develop**...

In 2014, Community Services Foundation partnered with Waypoint Homes to completely remodel the kitchen at Southwest Community Services (SCS) to use in their Food Service Training Program. Through this renovation, which brought 19 local vendors and foundations together in a collaborative, community project, individuals with disabilities have been able to further **develop** the skills necessary to obtain community employment in the food service industry.

and **create** opportunities...

CSF supported LifeStyles Academy in their vision to **create** new, innovative opportunities for individuals with developmental disabilities. The Academy offers a unique curriculum catered to each individual's personal wants, needs, and goals. With this vision in mind, CSF helped to **create** the Academy's brand new Advocacy Center, where participants are given the tools necessary to pursue their passions and are encouraged to broaden their experiences in the community to expand their options for vocational and lifestyle goals.

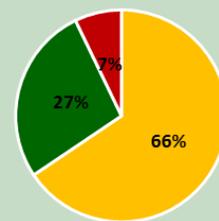

that will **support**...

CSF hired a grant writer to work on behalf of all each member agency in order to provide an additional means of generating financial **support** for programming and services. As a result, more than \$118,000 from various grantmakers was received which **supported** the missions and advanced programs of CSF member agencies.

and **inspire independence**.

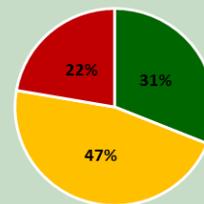

CSF helped to fund 39 renovation projects across 20 CILA homes for CTF Illinois. Projects included improving ADA accommodations, kitchen renovations, and bathroom and shower renovations. The improvements have expanded possibilities and **inspired** individuals to try new things by taking on more challenging tasks. As a result, the individuals have become more **independent** in their daily lives.
